

DEKRA – Cybersecurity OT Auditor / Test Engineer

We are looking for a **Cybersecurity OT Auditor / Test Engineer** to join our cybersecurity team. In this role, you will evaluate and test the security of OT (Operational Technology) environments, ensuring compliance with international standards and identifying risks within industrial and production systems.

As a Cybersecurity OT Auditor / Test Engineer, you will play a key role in auditing, assessing, and improving cybersecurity controls across business processes and technical environments, with a particular focus on industrial and critical infrastructure settings.

What will be your responsibilities?

- Perform cybersecurity audits and technical assessments of OT environments and supporting IT systems
- Evaluate compliance with ISO 27001 and IEC 62443 standards
- Perform testing and validation of security controls in industrial/production environments
- Analyse business processes and operations to identify cybersecurity risks and improvement areas
- Assess technical security measures such as network segmentation, access control, and system hardening
- Contribute to audit reports with clear structured findings
- Collaborate with internal stakeholders across engineering and operations teams
- Support continuous improvement of cybersecurity and quality processes
- A Computer Science, Telecommunication, or equivalent Bachelor's degree. A Master's Degree is a plus
- At least 3 years of demonstrated experience in a similar role
- Strong knowledge of ISO 27001
- Knowledge of OT Cybersecurity concepts and aligned with the IEC 62443 framework
- Experience with security tools (Nmap, Wireshark, Burp Suite...)
- Basic scripting or automation (Python, Powershell, Bash...)
- Strong communication and interpersonal skills
- Excellent writing and reporting skills
- Aptitude for teamwork in an international environment
- A good command of Dutch and English (written and spoken)

This is what you get from us

- An attractive salary and good employment conditions, we would be happy to discuss these with you personally;
- A variable success sharing arrangement;
- Enough relaxation thanks to 25 vacation days and 13 ADV days;

- Discount on various insurance policies;
- Plenty of career opportunities and various training courses so that you can continue to develop;
- A challenging position in a fun team of independent experts in a dynamic and international environment.
