

A banner image showing a man and a woman smiling in a laboratory setting. The text 'DEKRA – Technical Engineer Lighting' is overlaid in white on a dark green background.

What will your role involve

As a **Lighting Technical Engineer**, you will be responsible for testing and certifying a wide range of lighting products in accordance with international safety standards. One day you may be assessing a product from a global market leader, while the next you are supporting an innovative startup in bringing a new solution to market. This variety is what makes the role so exciting.

You will work with standards such as **IEC 60598** and **IEC 61347**, analyze test results, and support certification projects. In addition, you will collaborate with specialists in **EMC**, **photometry**, and **product certification**. As you are exposed daily to new products, technologies, and developments within the lighting industry, you will have plenty of opportunities to deepen your knowledge and further develop yourself into an expert in your field.

Your Profile

- Bachelor's degree or equivalent level of thinking and working, preferably in **Electrical Engineering** or a related technical field;
- Interest in product safety, testing, and certification of electrical products;
- Knowledge of **IEC 60598**, **IEC 61347**, and/or **IEC 62031** is an advantage;
- Strong analytical skills and a detail-oriented approach to work;
- Enjoy solving technical challenges and finding practical solutions;
- Strong communication skills and the ability to work effectively with colleagues and customers;
- Excellent command of the **English** language.

Here is what we offer

- Competitive salary and comprehensive benefits;
- A variable performance **bonus scheme**;
- **25 vacation days** and **13 ADV (Additional Days Off)** for ample relaxation;
- Travel and remote work allowances;
- Discount on various insurance plans;
- Abundant opportunities for **career growth**, supported by multiple training programs;
- Engage in a challenging role within a cohesive team of proficient experts in a dynamic and international setting;
- Curious about your colleagues? [Discover here](#) what they say about working at DEKRA.

More about DEKRA

DEKRA is the world's largest non-listed expert organization in testing, inspecting, and certifying according to

international safety and sustainability standards. Founded in Germany in 1925, the company's mission was to inspect vehicles to ensure traffic safety. Today, we offer a wide range of services, from product safety testing, audits, and inspections to damage assessment and HSE consulting. We operate in over 60 countries to ensure safety on the road, at home, and in the workplace worldwide. [Explore all our services here](#).

We have a clear mission: as a leader in testing, certification and inspection, we ensure that products, assets, and technologies are safe, reliable, and sustainable – building trust between people and technology. And you are welcome to join! [Discover more about DEKRA here](#).

Questions?

Do you have any questions about this vacancy? Please contact Jaimie Houtters. You can reach her at or by email to recruitment.nl@dekra.com.

Please note: We manage our recruitment and selection entirely in-house. We do not appreciate acquisition by agencies or intermediaries. Submitting candidates without prior consultation and an explicit, written assignment from DEKRA does not establish any rights. Unsolicited profiles will be considered unrequested and will not be processed.
