

A photograph showing two men in a laboratory setting. They are wearing green safety vests and are looking at a computer monitor. The man on the right is pointing at the screen. The background shows various pieces of electronic equipment and shelves.

## DEKRA - Test Engineer Charging Stations

### What will your role involve

Empower the future of electronic charging!

As electric and hybrid cars become increasingly prevalent, so does the need for innovating charging points. Dutch companies play a key role in this transition, and DEKRA is their trusted partner for testing and certifying charging stations. We are on the lookout for passionate team members to join our dynamic Charging Stations team.

These charging stations, equipped with advanced electronics and increasingly DC-powered, must adhere to various international standards and national requirements. If you find this challenging, you're the one we're looking for!

As a Test Engineer, you'll be the pioneer evaluating the latest innovations daily according to the highest standards. Within Consumer Safety, you're part of a dynamic team of experts, thriving in an inspiring work environment with international clients and diverse products.

### Responsibilities

- Independently conduct tests, spending about 60% of your time in the lab;
- Evaluate according to international standards and specific client specifications;
- Verify documentation compliance with project requirements;
- Prepare crucial reports for (preliminary) test results;
- Regularly liaise with costumers and project managers to ensure progress and anticipate potential challenges;
- Embrace variety - work on multiple projects simultaneously in the DEKRA lab.

### Your profile

Bring sufficient knowledge, education and experience to successfully fulfill this role. Additionally:

- Hold a bachelor's degree in electronics or electrical engineering or equivalent;
- Have experience in measuring electrical equipment;

- Demonstrate strong language skills in English. Knowledge of the German language is considered a plus;
- Familiarity with international standards, such as IEC 61851, this gives you an edge.

**Join DEKRA and contribute to a sustainable and innovative future for electric charging!**

## Here is what we offer

- Competitive salary and comprehensive benefits;
- A variable performance bonus scheme;
- 25 vacation days and 13 ADV (Additional Days Off) for ample relaxation;
- Travel and remote work allowances;
- Discount on various insurance plans;
- Abundant opportunities for career growth, supported by multiple training programs;
- Engage in a challenging role within a cohesive team of proficient experts in a dynamic and international setting.

## More about DEKRA

DEKRA is the world's largest non-listed expert organization in testing, inspecting, and certifying according to international safety and sustainability standards. Founded in Germany in 1925, the company's mission was to inspect vehicles to ensure traffic safety. Today, we offer a wide range of services, from product safety testing, audits, and inspections to damage assessment and HSE consulting. We operate in over 60 countries to ensure safety on the road, at home, and in the workplace worldwide. [Explore all our services here.](#)

We have a clear mission: as a leader in testing, certification and inspection, we ensure that products, assets, and technologies are safe, reliable, and sustainable – building trust between people and technology. And you are welcome to join! [Discover more about DEKRA here.](#)
