

DEKRA – Test Engineer Electronics

What will your role involve

Step into the wonderful world of Consumer Safety at DEKRA.

At Consumer Safety, we collaborate with a team of experts, serving a diverse clientele with a wide array of innovative products. From testing EV charging stations and 3D printers, lab measurement equipment and professional electronic products.

Our work is dynamic. The products we encounter are increasingly sophisticated, featuring intricate electronics, embedded software and wireless applications.

As a Test Engineer, your mission is to examine these cutting-edge innovations against the latest safety standards. You'll be engaged in multiple customer projects simultaneously, not only within the state-of-art DEKRA lab but also at client locations. Your time will be divided between hands-on lab work, translating measured results into comprehensive reports for our clients. You will also collaborate with colleagues from various teams.

Responsibilities

- Independently conduct tests, spending about 20-40% of your time in our lab;
- Performing safety assessments based on international standards or risk-based assessments and testing;
- Reporting (preliminary) test results;
- Keeping the project manager and the client informed about the status and progress.

Your profile

You come to this role equipped with extensive knowledge and expertise, and additionally you:

- have a bachelor's degree in Electrical Engineering or a related field;
- are experienced with measuring electrical equipment;
- demonstrate strong language skills in English. Knowledge of the German language is considered a plus;
- familiar with at least one of the following international standards: IEC 62368, IEC 60950, IEC 61010 and/or IEC 60601.

Here is what we offer

- Competitive salary and comprehensive benefits;
- A variable performance **bonus scheme**;
- **25 vacation days** and **13 ADV (Additional Days Off)** for ample relaxation;
- Travel and remote work allowances;
- Discount on various insurance plans;
- Abundant opportunities for **career growth**, supported by multiple training programs;

- Engage in a challenging role within a cohesive team of proficient experts in a dynamic and international setting.

More about DEKRA

DEKRA is the world's largest non-listed expert organization in testing, inspecting, and certifying according to international safety and sustainability standards. Founded in Germany in 1925, the company's mission was to inspect vehicles to ensure traffic safety. Today, we offer a wide range of services, from product safety testing, audits, and inspections to damage assessment and HSE consulting. We operate in over 60 countries to ensure safety on the road, at home, and in the workplace worldwide. [Explore all our services here](#).

We have a clear mission: as a leader in testing, certification and inspection, we ensure that products, assets, and technologies are safe, reliable, and sustainable – building trust between people and technology. And you are welcome to join! [Discover more about DEKRA here](#).
