

DEKRA – Test Engineer EMC

What you are going to do

In our growing EMC and Wireless lab, you will be a vital member of an engineering team as a test engineer. You will perform electromagnetic and radio frequency tests, to ascertain whether the latest and most advanced products meet the requirements of the EMC / Radio Equipment Directives and other international regulations. You will work in close contact with our customers; mostly over the telephone, but they will also make regular visits to our lab. This makes your work more interesting, because you like to share the experiences.

Although, you will be working in our state-of-the-art lab in Arnhem, the Netherlands, you will also have access to and contact with our labs in Spain, Germany, Sterling, USA, Taiwan, South Korea and China. This implies that you will collaborate with a global group of professionals!

Responsibilities

- Performing EMC and RF tests on various products in our state-of-the-art EMC&Wireless;
- Evaluating the test results and preparing test reports;
- Contacting customers on regular basis;
- Supporting our customers about test related problems with your knowledge of EMC&RF directives and standards;
- Playing an active role in the continuous improvement of the processes, procedures and equipment of the EMC&Wireless laboratory.

What you take with you

- You have an educational background related to electrical engineering or comparable;
- You have experience in the field of EMC and RF;
- Flexibility and multitasking. You can easily switch between working on various projects;
- Communication skills. You communicate well on different levels;
- Working in two shifts is no problem for you (morning and afternoon, switching every week);
- You speak English fluently.

What we offer

- Competitive salary and comprehensive benefits;
- A variable performance **bonus scheme**;
- **25 vacation days** and **13 ADV (Additional Days Off)** for ample relaxation;
- Travel and remote work allowances;
- Discount on various insurance plans;
- Abundant opportunities for **career growth**, supported by multiple training programs;

- Engage in a challenging role within a cohesive team of proficient experts in a dynamic and international setting.

More about DEKRA

DEKRA is the world's largest non-listed expert organization in testing, inspecting, and certifying according to international safety and sustainability standards. Founded in Germany in 1925, the company's mission was to inspect vehicles to ensure traffic safety. Today, we offer a wide range of services, from product safety testing, audits, and inspections to damage assessment and HSE consulting. We operate in over 60 countries to ensure safety on the road, at home, and in the workplace worldwide. [Explore all our services here](#).

We have a clear mission: as a leader in testing, certification and inspection, we ensure that products, assets, and technologies are safe, reliable, and sustainable – building trust between people and technology. And you are welcome to join! [Discover more about DEKRA here](#).

Questions?

Do you have any questions about this vacancy? Please contact Minke van Puijenbroek. You can reach her at or by email to recruitment.nl@dekra.com

Please note: We manage our recruitment and selection entirely in-house. We do not appreciate acquisition by agencies or intermediaries. Submitting candidates without prior consultation and an explicit, written assignment from DEKRA does not establish any rights. Unsolicited profiles will be considered unrequested and will not be processed.
