

DEKRA – Test Engineer Industrial Components

What will your role involve

Join our dedicated team of experts within the Industrial Safety division, where innovation meets diversity. DEKRA has a global client base, offering you a rich variety of projects. Your expertise is most needed within our Industrial Components segment. This role is perfect for those who thrive on conducting thorough tests on electrical components like circuit breakers, contactors, switches, and kWh meters.

Responsibilities

- You independently conduct tests in our own test laboratory where we perform tests with currents up to 10 kA;
- Together with colleagues from other teams, you create test plans and assess the results based on international standards;
- You receive and guide customers who occasionally attend the tests;
- You maintain contact with the customer and discuss the test results;
- You create reports and certificates for the tests performed;
- You are involved in the maintenance and upgrades of the equipment in the test laboratory.

Your profile

You come to this role equipped with extensive knowledge and expertise, and additionally you:

- You have a secondary vocational education / higher professional education level with sufficient knowledge of electronics;
- You are familiar with electrotechnical industrial components;
- You are independent and can work solution-oriented;
- Demonstrate strong language skills in English.

Here is what we offer

- Competitive salary and comprehensive benefits;
- A variable performance **bonus scheme**;
- **25 vacation days** and **13 ADV (Additional Days Off)** for ample relaxation;
- Travel and remote work allowances;
- Discount on various insurance plans;
- Abundant opportunities for **career growth**, supported by multiple training programs;
- Engage in a challenging role within a cohesive team of proficient experts in a dynamic and international setting.

More about DEKRA

DEKRA is the world's largest non-listed expert organization in testing, inspecting, and certifying according to international safety and sustainability standards. Founded in Germany in 1925, the company's mission was to inspect vehicles to ensure traffic safety. Today, we offer a wide range of services, from product safety testing, audits, and inspections to damage assessment and HSE consulting. We operate in over 60 countries to ensure safety on the road, at home, and in the workplace worldwide. [Explore all our services here.](#)

We have a clear mission: as a leader in testing, certification and inspection, we ensure that products, assets, and technologies are safe, reliable, and sustainable – building trust between people and technology. And you are welcome to join! [Discover more about DEKRA here.](#)

Questions?

Do you have any questions about this vacancy? Please contact Minke van Puijenbroek. You can reach her at or by email to recruitment.nl@dekra.com

Please note: We manage our recruitment and selection entirely in-house. We do not appreciate acquisition by agencies or intermediaries. Submitting candidates without prior consultation and an explicit, written assignment from DEKRA does not establish any rights. Unsolicited profiles will be considered unrequested and will not be processed.
