

# DEKRA – Accounting & Interface Specifications Consultant

## Job description

Support Finance and IT teams in defining, drafting, and implementing accounting interfaces by providing both business and technical expertise.

### Expected Deliverables:

- Functional and technical specifications for interfaces
- Documentation of inter-system accounting flows
- Test plans and validation of developments
- Recommendations for process optimization
- Manual maintenance of accounting flows until full automation is implemented

### Main Responsibilities:

- Analyze accounting requirements and inter-application flows (ERP, financial tools, third-party systems)
- Draft detailed functional and technical specifications
- Ensure data consistency and compliance with accounting standards
- Participate in workshops with Finance and IT teams
- Oversee testing and acceptance of interfaces
- Manually operate and monitor accounting flows during the transition phase to ensure continuity and accuracy until automated solutions are deployed

### Key Skills:

- Expertise in accounting (local and international standards)
- Proficiency with ERP systems (SAP, Exact GLOBE, or equivalent)
- Knowledge of data exchange protocols (API, EDI, XML)
- Strong writing skills and attention to detail
- Experience in project management and cross-team coordination

### Desired Profile:

- Education: Master's degree in Accounting, Finance, or Information Systems
- Experience: Minimum 5 years in accounting integration or migration projects, ideally in multi-system environments
- Personal Qualities: Strong analytical skills, autonomy, organizational ability, and capacity to manage complex situations in a project mode

- Languages: Professional proficiency in English - Knowledge of French would be an advantage.
- Plus: Experience in implementing accounting interfaces and managing manual flows prior to automation

**Duration:**

6 months (renewable)

**Location:**

Remote or hybrid
